

BYOD @ NLSC

NLSC is a Bring Your Own Device (BYOD) School. Students in year levels from upper primary through to senior school will use a learning device as an essential part of their daily learning.

YEAR 4 TO 9: ILEARN

Students will use an iPad as the learning device. The iPad is the chosen device due to its functionality, accessibility, reliability and portability.

YEAR 10 TO 12: HYBRID BYOD

Students will have flexibility with which device they choose to use for senior secondary. This could be an iPad or a laptop depending on subject selection.

Specifications
See college [website](#) for all device specifications (BYOD page under Curriculum Tab)
